Widening People's Choices

The objective of this Teach-In is to use the opportunity of the 2000 World Petroleum Congress (WPC) being held in Calgary, Alberta June 11-15 to expose the atrocities caused by the petroleum industry globally and to discuss alternatives to the oil paradigm. This will be a venue for people to learn about and discuss the reasons for abandoning the Oil Paradigm, ways in which we can do so, and what a Just and Sustainable future will look like. It will also be an opportunity to organize and build community in Alberta and beyond.
